

## FlightCell DZMx

### An All-In-One Satellite and Cellular Solution for Global Voice, Data, and Aircraft Tracking

The Flightcell DZMx is easily customized and configured to enhance your operation. It provides extensive voice, data and tracking capabilities in a small and lightweight form-factor.

#### Continuous Oversight of Your Team

Stay connected with powerful voice, messaging and tracking capabilities.

#### Lower Tracking Costs with Dual-Mode Satellite and Cellular Tracking

Whether you go out of network range, make a call or send data, DZMx keeps on tracking by auto-switching to the best available option - satellite or cellular networks - significantly reduce your tracking costs.

#### Global Voice and Messaging Capability for Enhanced Communication

Connected to the Intercom (ICS) platform, Flightcell DZMx provides full global voice communications and two-way messaging capabilities.

#### Built-in WiFi and Bluetooth

Access the internet using cellular broadband data and connected smart devices and equipment.

"We chose Flightcell's DZMx system because of the crystal clear communications and uninterrupted tracking."  
**Tim Douglas-Clifford – Garden City Helicopters**

# Specifications

<b>Dimensions</b>	125mm × 55mm × 120mm (4.92" × 2.16" × 4.72")
<b>Weight</b>	650gm (23oz) depending on configuration
<b>Connectors</b>	DB25 (female), DB25 (male), TNC (x2), BNC
<b>Inputs</b>	USB, Ethernet, RS232, RS432, RS485, ARINC 429
<b>Outputs</b>	2 general purpose outputs
<b>Buttons</b>	16 key backlit silicone keypad
<b>Sensors</b>	GPS, 3 general purpose digital inputs, 2 general purpose analog inputs
<b>Screen Type</b>	Monochromatic, NVIS B Compliance
<b>Antennas</b>	External GPS, Iridium, Cellular (not included)
<b>Power Sources</b>	External
<b>Satellite Network</b>	Iridium Voice, SMS and SBD
<b>Cellular Network</b>	Cellular Voice, SMS and Data (with optional 3G modem)
