

Iridium Extreme 9575

Unparalleled reach. In hand, everywhere.

Smarter and Tougher Satellite Phone for Mobile Communications All Over the World.

Communicate with your team, regardless of location

Iridium Extreme 9575 ensures you stay connected with satellite-based text messages, voice and Email capability.

Emergency Risk Management with Built-in SOS Button

Iridium Extreme 9575 integrates a one-touch SOS button. If an emergency notification is signalled from Iridium Extreme 9575, TracPlus will receive this distress and notify your team via in-app notifications, text messages and/or a phone call — giving you the ability to handle an emergency effectively. To assist your team further, TracPlus can share vital information and data with rescue agencies when required.

Enhanced Situational Awareness with Military-Grade Toughness

Iridium Extreme 9575 is ruggedly engineered to support the toughest usage in harshest conditions. The unit is dust-proof, shock-resistant and jet-water resistant for missions when enhanced situational awareness is critical. Knowing the exact location and the ETA of your team increases safety and allows you to coordinate more effectively with TracPlus.
