

Iridium Go!

**Your Life. Your Devices.
Connected. - Everywhere.**

Iridium GO! instantly creates a communications powerhouse, even beyond the reach of terrestrial networks.

Stay connected with Iridium GO! Text and Call

The Iridium GO! offers reliable voice and data calling via SmartPhone. You can also send quick GPS or check-in messages or check and send social media messages/posts.

Small, Rugged and Powerful

With one of the smallest form-factors in the industry, you can comfortably take Iridium GO!® anywhere you travel. Featuring a compact, portable design, the device is easy to carry, stow away in your backpack or mount for mobile applications. Iridium GO!® is ruggedly engineered to support you with:

- Military-grade (MIL-STD 810F) durability
 - Ingress Protection (IP) rating of IP65
 - Dust proof, shock resistant and jet-water resistant
 - Stable, lay-flat design
- The Iridium GO! Is a robust and compact device with long battery life. You can also simply view the battery life of the device so you never get caught out.

Enhance Safety with Automatic Alerting Systems

Activate emergency SOS messages and calls if your team's safety is jeopardized.
